

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 23, 2009 has been entered.
2. Claims 1-3 are presented for examination.

Allowable Subject Matter

3. Claims 1-3 are allowed.
4. The following is an examiner's statement of reasons for allowance: the closest prior art of reference are Sellakumar (US 6,960,329) and Higuchi et al (5,009,871). However, claim 1 distinguishes from the prior art due to the claim limitation, "the blowing of air so as to be at least 600 mV." None of the art of record teaches, suggests or provides motivation to combine references with air blowing with these prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Tomkins on March 17, 2009.

The application has been amended as follows: Claims 5-8 are cancelled.
